

Commercial Storage

It's not uncommon for businesses to run out of storage these days. Space is limited and paperwork builds up, even in this current age of Internet and e-mail.

That's why our self storage units are ideal for businesses that need extra space for documents and files, even stock and equipment.

Safety, savings and peace of mind

Modern, secure and climate controlled, commercial storage is a cost effective solution to a company's space requirements.

Each unit is individually locked and the client is given their own key. That way they can come and go, without restriction.

24/7 service and support

With round the clock security and a centralised access control system, our storage units offer the best protection for a company's assets.

For added convenience, we offer flexible agreements and payment methods. Units can be let on a short or long term basis and sign up is quick and easy.
